**NOTE FOR THE ATTENTION OF THE ERASMUS+ NA DIRECTORS**

**Subject: Green light for Erasmus+ Application eForms in Production and first release in production of EPlusLink**

I am happy to announce that **Accreditation** (HE Consortia and Youth) and **KA1** eForms have been released to NAs on 20/01/2014 and that you now can publish them on your website.

The procedure related to data protection mentioned in our note “E+/NA/DIR/2014/003” of 23/01/2014, has been finalised and you can publish the eForms on your website along with the “Specific privacy statement” that was annexed to the note mentioned above.

The **KA3** eForm has been released on 28/01/2014. You can already proceed with the translation of the form. However, before publication of the KA3 eForm, a new version of the reference data (CCM2 xcliff files) has to be released due to changes in these data that affect both KA2 and KA3. Translations that you already submitted will be merged and you will need to translate only the terms that have been added or modified.

The released eForms and related files can be found in CIRCA-BC at the following location:  
<https://circabc.europa.eu/w/browse/1d0f5622-9ba7-41c7-8cfd-c7af66f2716d>

The path is: *CircaBC > EAC > E+, LLP, YiA National Agencies > Library > Erasmus+ > E+ IT Tools > eForms > Application Forms 2014*

I am also happy to announce that **the first production version of EPlusLink** - that will allow NAs to receive and manage applications submitted using the released forms - **has been delivered** on 28/01/2014, following the planning. It can be found at CIRCA-BC at the following location:

<https://circabc.europa.eu/w/browse/3eae8073-20d4-44cf-9d0c-2b21b2de9179>

The path is: *CircaBC > EAC > E+, LLP, YiA National Agencies > Library > Erasmus+ > E+ IT Tools > EPlusLink > Release 1.6.1 - Production Release*

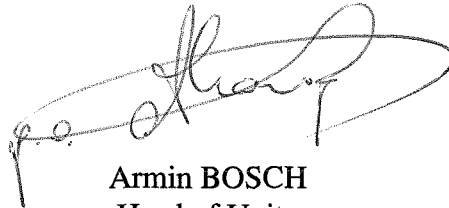

Concerning the application eForms for **KA2**, a **delay of 2 to 3 weeks** compared to the planned date (31/01) is to be expected. This is due to the need to introduce a number of changes following intensive testing, to clarify issues to applicants and facilitate the quality

assessment. I apologise for this delay, but we are confident that these improvements justify the slight delay and that applicants will still have sufficient time to complete and submit their application until the deadline of 30 April.

The second production release of EPlusLink will be provided at the same date as the KA2 application eForms.
